

PURE COPPER POLYESTER TAFFETA FABRIC

(Compare to Flectron®)

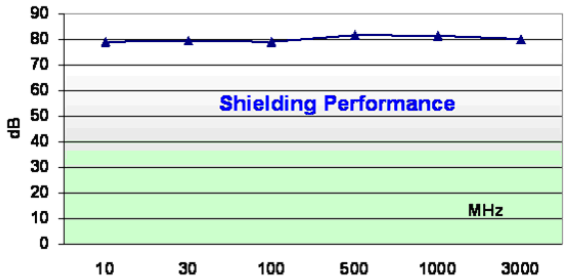

Shiny, smooth fabric with pure copper. Light weight and flexible. Easy to cut and sew like ordinary fabric. Better color stability due to tarnish resistant finish. High conductivity and shielding performance. Use it for drapes, wall covering, garments, pouches and more. Great price too! Not washable.

Width:
1080 mm (42.5 inch)

Thickness:
0.08mm (3 mil)

Weight: 80 g/m²

Surface Resistivity:
0.05 Ohm/sq
